TECHNICAL DATA SHEET

**Siltech®E-2152**

Cross-linked Alkyl Siloxane Emulsion

**DESCRIPTION**

**Siltech®E-2152** is a 50% active emulsion of a cross-linked alkyl siloxane that will form a dry siloxane film on dry down. **Siltech®E-2152** is emulsified with nonionic emulsifiers and can be used as is or at diluted concentrations.

**TYPICAL PROPERTIES**

Appearance	Milky Liquid
Composition	Cross-linked Alkyl silicone fluid
Active Content %	50
Water solubility	Dispersible

**USES AND APPLICATION**

**Siltech®E-2152** is especially formulated to cross-link into a durable finish. **Siltech®E-2152** provides excellent durability and softness to textiles, leather and other substrates. It will also impart slip and because of the alkyl portion provides superior water repellence.

**SAFETY**

Before handling, read the Material Safety Data Sheet and container label for safe use, physical and health hazard information.

**STORAGE AND SHELF LIFE**

When stored in the original, unopened containers between 10 and 40<sup>0</sup>C, **Siltech®E-2152** has a shelf life of 12 months from date of manufacture.

**PACKAGING**

**Siltech®E-2152** is available in 20kg and 200kg containers.

**LEGAL DISCLAIMER**

Siltech Corporation believes that the information in this technical data sheet is an accurate description of the typical uses of the product. Siltech Corporation, however, disclaims any liability for incidental or consequential damages, which may result from the use of the product that are beyond its control. Therefore, it is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Nothing contained herein is to be considered as permission or a recommendation to infringe any patent or any other intellectual property right.
